## PERSONAL STATEMENT

---

I have recently graduated from Auckland University of Technology with a Bachelor's degree in Computer and Information Sciences. My interest in computer sciences stems from my enjoyment to solve complex problems and apply creative methods to do so. I am eager to learn, and enjoy working collaboratively in a team, but also thrive when working independently.

## EDUCATION

---

### Auckland University of Technology

BCIS in Software Development, Language Teaching minor

2020 – 2023

## SKILLS

---

- Java, C#, C, Python, XML, HTML, PHP, CSS, JavaScript

## PROJECTS

---

NeuWord (personal project) *Unity, C#, Android, Git*

Nov 2022 – Feb 2023

<https://play.google.com/store/apps/details?id=com.DefaultCompany.NeuWord>

- A simplistic, grid-based word finding game, published to the Google Play Store.

PinguTopia (course project) *Unity, C#, Android, Git, Trello*

Mar – Nov 2022

<https://github.com/sashabuski/PinguTopia>

- Led development within a SCRUM team to produce a climate-oriented, world-building game built in Unity for Android.
- Implemented user stories defined by a product owner to fulfil acceptance criteria.
- User story point estimation using the Fibonacci and scrum poker method.
- Regular standups, sprints, retrospectives, and task estimation.

HopIn (course project) *Java, XML, Android, Firestore, Git, Trello*

Jul – Nov 2021

<https://github.com/sashabuski/Bunnies>

- Led development within a SCRUM team to produce an Uber clone/ride share app built in Android Studio.
- Developed responsive UI, all backend functionalities including live location tracking and chat functionality.
- Developed under Agile methodology.

Who Wants to Be a Millionaire? (course project) *Java, JUnit*

Mar – Jun 2021

<https://github.com/sashabuski/WhoWantsToBeAMillionaire>

- Trivia game developed in NetBeans for PC, utilising JUnit testing and model-view-controller architecture.
